MARYLAND BUSINESSMEN VISIT CAMPUS TO INTERVIEW STUDENTS

Scranton, PA – March 31, 2009 – Mark Cornelius, Director of Clinical Engineering at Peninsula Medical Center in Salisbury, MD interviewed a Johnson College student and a Johnson College graduate for two entry-level Biomedical Equipment Technology positions on Wednesday, March 25th on the College's campus.

Cornelius interviewed potential employees along with Shawn Jones, an Area Manager for Horizon CSA. Horizon CSA has 26 different accounts with hospitals across the nation to provide quality medical machines and maintenance. The two worked together in selecting the perfect candidates, who, according to Jones has, "...pride in what they're doing. We're looking for someone who's driven, who has a great ability to communicate well with a piece of equipment." They also have to, "...not forget the human side of what [they] do."

Johnson College graduates have been employed by both Horizon CSA and Peninsula Medical Center in the past. The employers feel that Johnson graduates are well trained and well suited for their respective trades.

Left to Right: Doug Hampton, Biomedical Equipment Technology Chairperson, Shawn Jones, Horizon CSA Area Manager, Mark Cornelius, Director of Clinical Engineering at Peninsula Medical Center, and Roseann Martinetti, M.A., Coordinator of Grants and Industrial Relations

[Johnson College](#) was founded in 1912, and is the region's premier technical college, offering associate degrees in 13 programs. An emphasis on hands-on instruction is supported by a low student-to-teacher ratio. Located in Scranton on a 44-acre campus, Johnson is an accredited, private, non-profit, co-educational institution with a strong tradition of working with regional business and industry to ensure a skilled and qualified workforce.
